ABLE TO LEAP TALL ORDERS IN A SINGLE BOUND

For more than 80 years, our men and women of steel have come to the rescue time and again, providing cold-drawn carbon, alloy and high chrome mechanical and pressure tubing and piping for many industries. Since 1927, our 320,000 sq. ft. seamless tube and pipe manufacturing facility has operated continuously, becoming a global manufacturing force that is committed to accommodating large and small mill quantities and expedited deliveries.

We've designed our business to meet the needs of your business, and MST has a long tradition of providing exceptional services, competitive pricing and incredibly quick turnaround. No matter what your need, every order is completed on time, every time. Isn't it about time?

FULL SPEED AHEAD

At MST, we understand that the only deadline that really matters is yours. So we're committed to consistently meeting every customer's deadline no matter how intense the timeframe. We've built our systems for speed – from start to delivery – so we can accommodate even the tightest turnaround time. And like every order we manufacture, even the hottest jobs are completed with the utmost in precision and care to ensure you get the high quality product you have come to expect from MST.

SUPERIOR STRENGTH AND EXCEPTIONAL QUALITY

When your business relies on superior cold-drawn seamless products, you can count on MST to provide the highest quality product, no matter what industry you serve. Our cold-drawn seamless products possess exceptional strength-to-weight ratios, excellent surface quality and dimensional accuracy. Plus, it's available in a wide range of chemistries and mechanical properties, including carbon and alloy grades. From handrails to hydraulics and everything in between, our cold-drawn seamless products can fit a wide variety of applications. Come to MST with your specifications, and our experts will perform a review to see how we can meet the stringent requirements of even the toughest tube and pipe order you may have.

WE'VE MADE IT OUR BUSINESS TO ADAPT TO YOURS

Our customers come from many different industries, and their needs differ as much as their applications. But MST is never daunted by custom orders. In fact, we welcome unusual requests and custom specifications from any industry, and we are always able to rise to the challenge and manufacture every order to your exact specifications.

MST offers a full range of options to fill even the toughest request, including:

- Wide variety of shapes and sizes
- Large selection of steel grades
- Random or custom cut lengths available upon request
- Custom chemistry
- Extensive options for wall thickness and OD sizes
- Custom bundle sizes

PROUDLY PRODUCED IN THE USA

Since producing our first seamless tube, the MST manufacturing facility has always sat proudly in South Lyon, Michigan, a small Midwestern town in the United States. While others send their business overseas, we prefer to keep our business stateside and let domestic and overseas companies come to us for their seamless tube and pipe. All of our products are melted and manufactured in the U.S.A.

WE PUT OUR PRODUCTS TO THE TEST

Your tube and pipe product doesn't leave our facility until it's tested against your specifications and our own quality standards. In-house, MST performs a multitude of tests including flatten, flare, tensile, yield, hydrostatic pressure and positive materials identification (PMI). We also can perform ultrasonic testing to detect imperfections as well as examine and measure wall thickness. Through our rigorous non-destructive testing process, we ensure our products meet both our customers' needs and our own exceptionally high expectations. No matter what you order, it's our standard practice to thoroughly test all products. No order leaves our facility without being eddy current and PMI (positive materials identification) tested. And our metallurgical testing lab can generate Material Test Reports before we deliver your order. Metallographic testing can also be performed, and special testing is available as well. Simply ask one of our knowledgeable salespersons to see if we can meet your need.

A large stack of stainless steel seamless tubes, arranged in a grid pattern. Several identification tags are attached to the tubes, featuring barcodes and text. The background is dark, and the lighting highlights the metallic texture of the tubes. The entire image is framed by a large, stylized red graphic element on the right side.

OUR PROMISE TO YOU

MST takes your business seriously. We pledge to always be here and ready to meet your seamless tube and pipe needs with super service, high quality products and tremendous speed. It's about time someone came to your rescue.
