Dear Valued Customer,

With respect to Directive 2015/863 of European Parliament on the restriction of the use of certain hazardous substances in electrical and electronic equipment (The "RoHS3 Directive"). Michigan Seamless Tube & Pipe (MST), issues the following statement:

Michigan Seamless Tube & Pipe, hereby affirms that all of our current cold finished products comply with the RoHS3 Directive and do not contain any of the ten restricted substances above the current limits. This conclusion is based on information received from our suppliers and knowledge of our manufacturing process.

Please contact your local sales representative if you have any questions or need further information.

Thank you for your continued support!

Sincerely,  
Michigan Seamless Tube, LLC

Tom Sleder  
General Manager  
Michigan Seamless Tube, LLC
